

On the acknowledged bonds of the State, the annual interest payable after July 1, 1845, by the terms of the act of March, 1843, will be \$205,44 30; and if the warrants issued and authorized to be issued upon the internal improvement fund be not paid by the lands of the state the annual interest will be little less than \$210,000 00.

The amount of scrip outstanding, besides interest, is 73,563 dolls. which is liable to be increased 24,330 dolls. 73 cents the amount of unpaid warrant on the general fund, and will also be liable to be further increased by appropriations at the present session of the legislature.

About 95,000 dolls will be required to pay the balance due for iron, purchased by the direction, of the act of 21st February last, for payment of which the net proceeds of the public works are pledged.

The general fund bonds, and delinquent tax bonds, mentioned above are properly payable from the general fund, so called being the fund created and kept up by the annual state tax, and from which the expenses of the state government are paid. Excluding the two former, due at a future period and including the latter now due, the following is a true exhibit of the liabilities and resources of the general fund, on the 30th day of November last:

on the lines of our own ship. It was passed the Senate but was lost in the House. Such a grant would be of vast importance to the state, and it is worthy of your consideration whether appropriate measures adopted by you, might not aid in obtaining it. Justice requires that for the construction of the works of internal improvement the same assistance should be extended to Michigan that has been conferred on her sister states.

TARIFF—GLASS TUMBLERS.—The country formerly imported most of her glass ware, among the rest, the cheap, common tumbler from Germany, at a cost of 50, 44, 41, and at the lowest 38 cents a dozen. This was thought the lowest possible price—the importers declaring that they brought them merely to fill up their cargoes and were satisfied to make barely freight on them, as they were sure sale. The new tariff imposed a heavy duty on these tumblers—ten cents a pound—and now our own people were encouraged to attempt making them. The result already is that they are now selling these same tumblers at twenty-seven and a half cents a dozen—lower than ever before. This is one of the articles on which, according to the free traders, the Whig tariff has taxed our people fifty to a hundred per cent!—*Tribune.*

TYPE SETTING MACHINE.—Mr. J. V. Ford of this city, has been engaged for several years in bringing to perfection a type setting and distributing machine of his own invention, which he has at length completed.

The machine is operated by means of keys moving like the keys of a piano forte. The movement of each key depositing the required letter in its proper place. It will set 180 type in a minute. A particular description of this machine is withheld at present for obvious reasons. In the course of a few weeks a full description of it will be laid before the public.

Mr. Ford will carry his machine to N. York this day, for the purpose of submitting it to the inspection of those who feel an interest in improved system of labor saving.—*Troy Whig.*

MAINE.—The votes have at length been officially counted in the late special elections for Congressmen. In two of the Districts, Whigs have been chosen, and two there is still no choice. Our friends in that State speak confidently of carrying Maine for Mr. Clay, next year.

We learn from the Signal of Liberty, that the execution of Chorr, at Ann Arbor, for murder, is to take place on the 15th of March next.

of a life before the "President's sons," and they before "my father the President," and Abell is forthwith domiciliated at the White House. The "life" being finished and in the hands of the printers, he is sent with a fat salary on a wild goose chase, to hunt up the Texan hoax, about as useful a mission as that once proposed for "the President's son" John, as "Ornamental Secretary to China." Well, the mission is over, and the book is ready to issue and now goes forth the mandate, bearing date at the "PRESIDENT'S HOUSE," to the faithful to contribute from their salaries, to pay the cost of this waste of ink and paper. We venture to say, there is not an office-holder, even within the perious of the White House, who will read three lines of the 300 pages of this 8 vo. life of John Tyler! But the profits, the spoils, will be not the less certain. The order is for 60 or 70 copies to each office-holder; but the "big bugs," will have to roll a larger ball—say from 200 to 500 copies. The average cannot be less than 2 copies to each of the 50,000 "faithful" large and small, which at 50 cents each, will yield a revenue of \$50,000. How much of this item the President's son John—the Private Secretary, receives, we have no means of determining. We leave it for our readers to decide for themselves, if the broad earth contains a more glaring exhibition of blind and unmitigated vanity and folly, in high places, or deeper and more disgraceful political corruption in the chief Executive of a nation, than the whole affair of the "Life of the President," from its inception to the final levy of contributions upon the subordinates, through-out presents.—*Det. Daily Ad.*

Here is the correspondence:

"President's House, Nov. 30, 1843.

SIR:—As it is considered important, in justice to the President, to circulate among the people the word spoken of by Mr. Abell, in the accompanying letter, you will confer a favor on the undersigned, by taking such measures for that, and as Mr. A. suggests.

Prompt action and a liberal subscription, will render your services still more useful.

I am, very respectfully,
your obedient servant,
JOHN TYLER, Junior."
